Calle 143 #9-55 Apto 307

DATE OF BIRTH

2006-03-21

WORK HISTORY

- **Vue.js and JS Developer**

2025-02 - 2025-08

■

Freelance Developer

2026-04 - PRESENT

■

Data Structures and Algorithms Teaching Assistant

2025-01 - 2025-05
- KIPLAN , BOGOTA

I was part of the development team for an Excel Add-in for financial consulting in its pre-delivery phase. Over 6 months, I worked on integrating new features and improving overall performance using Vue.js and JavaScript. I designed and implemented the automated testing strategy on my own initiative, which strengthened product quality. Additionally, I expanded my skills in software architecture and application deployment.
- CASA FIDENZA, REMOTE

Freelance Developer in charge of the full software development lifecycle for Casa Fidenza. I implemented the web interface using Astro and React, and modeled data persistence using Node.js, Prisma, and PostgreSQL. Directly responsible for the infrastructure, I configured a secure production environment on a VPS with custom authentication and automated the continuous integration and continuous delivery (CI/CD) process using Jenkins.
- UNIVERSIDAD DE LOS ANDES, BOGOTA

Responsible for supporting laboratory hours, answering questions, and guiding students through solving technical problems. In charge of evaluating and grading weekly labs and programming challenges.

EDUCATION

- **Systems and Computing Engineering**

2024-01 - PRESENT

■

Secondary Education

2018-02 - 2023-11

■

Primary Education

2013-02 - 2017-11
- UNIVERSIDAD DE LOS ANDES, BOGOTÁ

Sixth semester
- GIMNASIO LOS ANDES, BOGOTÁ

Meritorious graduation project certificate (Single-use polyethylene replacement biopolymer derived from potato starch extraction).
- GIMNASIO LOS ANDES, BOGOTÁ

SKILLS

- Project management
